

SCEMA Annual Report

2018-2019

OUR MISSION

To serve the emergency management community by providing information, professional development, and networking through state and local agencies, private industries, and volunteer organizations to advance the emergency management profession.

OUR VISION

To advance the emergency management profession in South Carolina by providing a structured, goal-oriented, organization that serves a diverse emergency management community.

ACCOMPLISHMENTS and the PATH FORWARD

2018 was another busy and successful year for SCEMA. In March, the association hosted its second **Legislative Breakfast** at the Statehouse. More than 50 legislators visited the event, and many engaged in productive discussions regarding the emergency management profession and policy issues. In August, **SCEMA sponsored a breakout session at the SC Association of Counties Annual Conference** to present on emergency human resource policy issues. The sessions were well attended by county administrators and council members. The long awaited **SCEMA Strategic Plan** was completed by a working group who formulated a survey and opened several comment periods as the plan moved through the drafting process. The 5-year plan was adopted at the January 2019 quarterly membership meeting and is available on the SCEMA website.
